Table 11. PCA changes the feature space being assessed

Dataset	Feature space	Dimensions	K	Silhouette
Health	Full transformed	24	2	0.180
Health	PCA ≥90% variance	14	2	0.199
E-commerce	Full transformed	22	2	0.249
E-commerce	PCA ≥90% variance	13	2	0.273

Same candidate K, seed and n_init; silhouette is measured in each fitted space. Primary models below remain in full transformed space.
