Table 12. Compare algorithms on the same feature space

Dataset	Candidate K	Method	Silhouette
Health	2	K-means	0.180
Health	2	Agglomerative (Ward)	0.164
E-commerce	2	K-means	0.249
E-commerce	2	Agglomerative (Ward)	0.246

Fixed sampled silhouette; algorithms fitted on all records. A different cluster number is not a diagnosis or a causal explanation.
